INTRODUCING THE M'SMART
UNMATCHED VALUE IN THE VEHICLE WASH INDUSTRY

M'SMART

MAXIMUM SAFETY

Redundant technologies including photo cells, amperage sensing and touch pads are used to create the safest washing environment in the industry today.

Increased memory and the new CPU means less wires, smaller cables and less connections.

Site specific safety devices are available for short or narrow bays. Consult with your ISTOBAL sales professional.

PERFECT BRUSH CONTROL

Industry leading pneumatic & amperage sensing system creates instantaneous brush adjustments to the shape of the vehicle safely and perfectly applying brush pressure on the most difficult parts of the car. The enhanced system provides for thorough yet gentle cleaning on the rocker panels as well as the area where the side and roof meet.

Precise control greater stability perfect results!

SPACIOUS WASHING AREA

Industry leading washing width of 8' 10" (107 inches).

Industry leading standard washing height of 8' 4" (88 inches)!

Optional model 9' 6" washing height washes even Sprinters

MEDIUM PRESSURE OPTIONS

The innovative "on board" system of the M'SMART Medium Pressure pumping system is mounted on board in the column. This means various Medium pressure options are available without the high extra cost involved in installing this type of pump externally in the Equipment Room.

Everything has a beginning and that is why with the new M'SMART we have decided to go back to first principles: simple design, ease of assembly and a sober image but with the appeal, durability and technological features expected of a 21st century wash machine.

EFFECTIVE DRYING

Dryer 12 kW (2 x 3 kW Vertical + 2 x 3 kW Horizontal dryer nozzle plus vehicle scanning and optional diffuser to achieve a better dry on the rear of the vehicle. The best Part is these Dryers are super quiet...Only 71 Decibels

WHEEL SCRUBS

Counter rotating wheel scrubbers constructed of a new stainless steel frame with three vibration absorbing joints! Featuring a new generation of photocells specifically designed for use on our rollover's. They provide greater accuracy and maximum reliability.

A MULTITUDE OF OPTIONS

High shine wax with polish, foam, chemical prewash and wheelwash, are just a few of the options available for equipping your M'SMART rollover. With them, you can offer a gentle but effective wash and high quality wash programs with a reduced water consumption.
